SCOPE LANGSUAN, PENTHOUSE, BANGKOK

SCOPE Langsuan is a recently launched landmark residential development with the rare benefit of freehold on Soi Langsuan, one of Bangkok's most sought-after residential roads.

Designed by renowned architecture firm Kohn Pedersen Fox (KPF), New York, and with interiors by Thomas Juul-Hansen, SCOPE Langsuan has been conceived to set a new standard of luxury in a low-density 34-floor building with outstanding residents' facilities and services.

This spectacular penthouse apartment positioned on the 31st floor extends 397 sq.m (4,273 sq.ft) and is poised to become one of Bangkok's most premium residences when completed in 2023. The unit promises fabulous views and is available for the lucky owner to design to their own floor plan and specification.

The Langsuan and Lumpini area is defined by Lumpini Park, as well as its major thoroughfares: Ratchadamri, Wireless, Ploenchit, Chidlom and Langsuan Roads. Well-served by public transportation, particularly the BTS Skytrain system and the MRT (subway), it attracts many well-to-do Thais and senior management expatriates. SCOPE Langsuan is well-served by local amenities including some of Bangkok's most popular shopping malls, restaurants and entertainment spots, all within easy walking distance.
